#### 2.8 Component of Financial Statements

- (i) Statement of Financial Position as at 30 September 2020;
- (ii) Statement of Profit or Loss and other Comprehensive Income for the period ended 30 September 2020:
- (iii) Statements of Changes in Shareholders' Equity for the period ended 30 September 2020;
- (iv) Statement of Cash Flows for the period ended 30 September 2020; and
- (v) Notes to the Financial Statements for the period ended 30 September 2020.

#### 3.00 Significant accounting policies

The accounting policies set out below have been applied consistently to all period presented in these financial statements.

#### 3.01 Property, plant and equipment

#### 3.01.1 Recognition and measurement

Property, plant and equipment are measured at cost and valuation (only land) less accumulated depreciation and impairment losses, if any. Cost includes expenditures that are directly attributable to the acquisition of the asset. It is carried at the lower of its carrying amount and fair value less cost. Any write-down is shown as an impairment loss. Cost includes expenditures that are directly attributable to the acquisition of the asset. Purchased software that is integral to the functionality of the related equipment is capitalised as part of that equipment.

#### 3.01.2 Subsequent costs

The cost of replacing part of an item of property, plant and equipment is recognized in the carrying amount of the item if it is probable that the future economic benefits embodied within the part will flow to the company and its cost can be measured reliably. The costs of the day-to-day servicing of property, plant and equipment are recognized in the statement of comprehensive income as incurred.

#### 3.01.3 Depreciation on property, plant and equipment

Property, plant and equipment are stated at cost less accumulated depreciation thereon. Depreciation is charged applying diminishing balance method on all fixed assets other than land and land development. Depreciation has been charged on addition when the related asset is available for use and no depreciation has been charged when the related assets are de-recognized/disposed off. After considering the useful life of the assets as per IAS-16: Property Plant and Equipment, the depreciation rates have been applied as under which is considered reasonable by the management:

SL No.	Particular	Rate of
		Depreciation
01	Factory Building	2.50%
02	Plant & Machinery	7.00%
03	Factory Shed	7.5%
04	Electric, Gas, Water, Steam and Telephone Installation, Furniture & Fixture, Office Equipment, Factory Equipment and Tools & Apparatus.	10%
05	Motor Vehicle	15%

#### 3.01.4 Impairment of assets

### I) Financial Assets

Accounts receivable and others receivables are assessed at each reporting date to determine whether there is any objective evidence of impairment. Financial assets are impaired if objective indicates that a loss event

has occurred after the initial recognition of the asset and that the loss event had a negative effect on the estimated future cash flow of that asset that can be estimated reliably. Objective evidence that financial assets are impaired can include default of delinquency by a debtor, indicates that a debtor of issuer will enter bankruptcy etc.

#### II) Non-Financial assets

An asset is impaired when its carrying amount exceeds its recoverable amount. The company assesses at each reporting date whether there is any indication that an asset may be impaired. If any such indication exits, the company estimates the recoverable amount of the asset. The recoverable amount of an asset is the higher of its fair value less cost to sell and its value in use. Carrying amount of the assets is reduced to its recoverable amount by recognizing an impaired loss is recognized immediately in statement of comprehensive income unless the asset is carried at revalued amount. Any impaired loss of a revalued asset treated as a revaluation decrease. During the year no impaired loss occurred to recognize in the Financial Statements.

#### 3.2 Inventories

Inventories are measured at the lower of cost and net realizable value. The cost of inventories is valued at weighted average cost method and includes costs for acquiring the inventories and bringing them to their existing locations and conditions.

#### 3.3 Provisions

A provision is recognized on the balance sheet date if, as a result of past events, the Company has a present legal or constructive obligation that can be estimated reliably, and it is provable that an outflow of economic benefits will be required to settle the obligation.

In accordance with the guidelines as prescribed by IAS-37: Provisions, Contingent Liabilities and Contingent Assets, provisions are recognized in the following situations;

- a) when the company has an obligation (legal or constructive) as a result of past events;
- b) when it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation; and
- c) Reliable estimates can be made of the amount of the obligation.

### 3.4 Earnings per share (EPS)

This has been calculated in compliance with the requirement of IAS-33: Earnings per share. Earnings per share by dividing the net earnings after Tax by the number of ordinary shares outstanding during the period.

Basic Earnings per share (Numerator / Denominator)

Earnings (Numerator)

\*This represents earning for the year attributable to ordinary shareholders

No. of ordinary shares (Denominator)

This represents number of ordinary share outstanding during the period.

# Diluted Earnings per share

As per the existing conditions of the loans taken by the company from various financial institutions or other contracts with various parties including employees, there is no condition related to conversion or stipulation related to share based payments for material and services supplied by them to the company. Hence, no Diluted EPS of the company has been calculated.

#### 3.5 Revenue

In compliance with the requirements of IFRS 15 "Revenue from Contracts with Customers" revenue represents the sales proceeds which are recognized when the parties to the contract have approved the contract and are committed to perform their respective obligations; delivery are made from factory godown to carriers that is, when the significant risk and rewards of ownership have been transferred to the buyer, recovery of the consideration is probable, the associated costs and possible return of goods can be estimated reliably, and there is no continuing management involvement with the goods.

#### 3.6 Trade receivables

Trade receivables at the balance sheet date are stated at amounts which are considered realizable.

### 3.7 Finance income and expenses

Finance income comprises interest income on funds invested. Interest income is recognised as it accrues. Finance expenses comprise interest expense on borrowings, bank charges and guarantee costs. All borrowing costs are recognized in the Statement of Profit or Loss and Other Comprehensive Income using the effective interest rate.

#### 3.8 Cash and cash equivalents

It includes cash in hand and other deposits with banks which were held and available for use by the company without any restriction.

#### 3.9 Taxation

#### Current tax

Provision for current income tax has been made during the year under review in respect of net profit at the rate of 15%

#### Deferred tax

Deferred tax liabilities are the amount of income taxes payable in future years in respect of taxable temporary differences. Deferred tax assets are the amount of income taxes recoverable in future years in respect of deductible temporary differences. Deferred tax assets and liabilities are recognized for the future tax consequences of timing differences arising between the carrying values of assets, liabilities, income and expenditure and their respective tax bases. Deferred tax assets and liabilities are measured using tax rates and tax laws that have been enacted or subsequently enacted at the financial statement date.

#### 3.10 Foreign Currency Transaction

Foreign currency transactions are recorded, on initial recognition in the functional currency at the spot exchange rate ruling at the transaction date.

At the end of each reporting period, in compliance with the provision of IAS 21: The Effects of Changes in Foreign Exchange Rates are determined as under:

- a) Foreign currency monetary items are translated using the closing rate.
- b) Non-monetary items that are measured in terms of historical costs in a foreign currency are translated using the exchange rate at the date of the transaction.
- c) Non-monetary items that are measured at fair value in a foreign currency is translated using the exchange rate at the date when the fair value is determined.
- d) Exchange differences arising on the settlement of monetary items or on translating monetary Items at rate different from those at which they were translated on initial recognition during the year or in previous financial statements is recognized in profit or loss in the year in which they arise.

#### 3.11 Employee Benefits:

The Company is operating Workers Profit Participation Fund (WPPF) and Welfare Fund according to Bangladesh Labour Law 2006 and Bangladesh labour (Amendments) Act 2013 are accounted for securing benefits to the employees in accordance with the provision of International Accounting Standard (IAS)-19, "Employee Benefit".

#### **Retrial Benefits (Gratuity):**

The retrial benefits (gratuity) liability for the permanent employees of the Company is accrued at one months' basic pay for each completed year of service of each employee who has completed service for six months or more.

#### 3.12 Related party disclosure

As per IAS 24: Related Party Disclosure, parties are considered to be related if one has the ability to control or exercise significant influence over other in making financial and operating decisions.

#### 3.13 Statement of Cash Flows

The statement of cash flows has been prepared in accordance with the requirements of IAS 7 "Statement of Cash Flows". The cash generating from operating activities has been reported using the direct method as prescribed by the Securities and Exchange Rules, 1987 and as the benchmark treatment of IAS 7 whereby major classes of gross cash receipts and gross cash payments from operating activities are disclosed.

#### 3.14 Events after the Reporting Period

In compliance with the requirements of IAS 10 "Events after the Reporting Period" events after the reporting period that provided additional information about the company's position at the statement of financial position date are reflected in the financial statements and events after the statement of financial position date that are not adjusting events are disclosed in the notes when material.

#### 3.15 Risk Exposure

#### **Interest Rate Risk**

Interest rate risk is the risk that company faces due to unfavorable movements in the interest rates. Changes in the government's monetary policy, along with increased demand for loans/ investments tend to increase the interest rates. Such rises in interest rates mostly affect companies having floating rate loans or companies investing in debt securities.

#### **Management Perception**

The company has mostly fixed rate loans; and accordingly, adverse, impact of interest rate fluctuation is insignificant.

#### **Exchange Rate Risk**

Exchange rate risk occurs due to changes in exchange rates. As the company imports materials and equipment from abroad and also earns revenue in foreign currency, unfavorable volatility or currency fluctuation may affect the profitability of the company. If exchange rate increases against locale currency, opportunity arises for generating more profit.

#### **Management Perception**

The company's exports exceed imports; therefore, volatility of exchange rates has limited impact on profitability of the company.

#### **Industry Risks**

Industry risk refers to the risk of increased competition from foreign and domestic sources leading to lower prices, revenues, profit margin, and marker share which could have an adverse impact on the business, financial condition and results of operation.

#### **Management Perception**

Management is optimistic about growth opportunity in garments and textiles sector in Bangladesh. Furthermore there is untapped international market.

#### Market risks

Marker risks refer to the risks of adverse market conditions affecting the sales and profitability of the company. Mostly, the risk arises from falling demand for the product or service which would harm the performance of the company. On the other hand, strong marketing and brand management would help the company increase their customer base.

#### **Management Perception**

Management is fully aware of the market risk and act accordingly. Moreover the company has a strong marketing and brand management to increase the customer base and customer loyalty.

#### **Operational Risks**

Non-availabilities of materials/ equipment's/ services may affect the smooth operational activities of the company. On the other hand, the equipment may face operational and mechanical failures due to natural disasters, terrorist attacks, unforeseen events, lack of supervision and negligence, leading to severe accidents and losses.

#### **Management Perception**

The company perceives that allocation of its resources properly can reduce this risk factor to great extent. The company hedges such risks in costs and prices and also takes preventive measures therefor.

# **Liquidity Risk**

Liquidity Risk is defined as the risk that the company will not be able to settle its obligations on time or reasonable price.

#### **Management Perception**

The company's approach to managing liquidity is to ensure, as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the company's reputation. Typically, management ensures that it has sufficient cash and cash equivalent to meet expected operational expenses, including the servicing of financial obligation through preparation of the cash forecast prepared based on time line of payment of the financial obligation and accordingly arrange for sufficient liquidity/ fund to make the expected payment within due date.

# Financial risk management (IFRS 7)

#### Introduction

The Company's activities expose it to a variety of financial risks: credit risk, market risk (including interest rate risk and foreign currency risk), and liquidity risk. The Company's risk management focuses on the unpredictability of financial markets and seeks to minimize potential adverse effects on the Company's financial performance. The Company uses derivative financial instruments to economically hedge certain risk exposures.

Financial risk management is carried out by a central treasury department (Company Treasury) under policies approved by the Board of Directors (Treasury Policy). Company Treasury identifies evaluates, and hedges financial risks in close co-operation with the Company are operating units. The Treasury Policy' provides principles for specific areas, such as credit risk, interest rate risk, foreign currency risk, use of derivative financial instruments, and investment of excess liquidity.

This note presents information about the Company's exposure to each of the risks arising from financial instruments and the Company's objectives, policies, and processefor measuring and managing risk. Further quantitative disclosures are included throughout these consolidated financial statements.

#### **Credit risks:**

Credit risk is the risk of financial loss to the Company if a customer or counterparty to financial instruments fails to meet its contractual obligations, and arises principally from cash and cash equivalents, time deposits, and trade accounts receivable.

The credit risk with Accounts Receivable (see note 07) is limited, as the Company has numerous clients located in various geographical regions. The Company's exposure to credit risk is influenced mainly by the individual characteristics of each customer. For risk control, the customers are companied as follows (risk companies): governmental organizations, listed public limited companies, and other customers. Credit limits are established for each customer, whereby the credit limit represents the maximum open amount without requiring payments in advance or letters of credit; these limits are reviewed regularly (credit check).

The maximum exposure to credit risk is represented by the carrying amount of each financial asset, including derivative financial instruments, in the Statement of Financial Position. There are no commitments that could increase this exposure to more than the carrying amounts.

#### Market risks

Market risk is the risk that changes in market prices, such as interest rates, foreign exchange rates, and other prices will affect the Company's result or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters while optimizing the return on risk.

#### Interest rate risk

At the reporting date, the Company had the following interest-bearing financial instruments: cash and cash equivalents, time deposits, rent deposits, and bank liabilities. All cash and cash equivalents mature or reprise in the short-term, no longer than three months.

Borrowings mainly bear interest at fixed rates. Cash and cash equivalents and borrowings issued at variable rates expose the Company to cash flow interest rate risk.

The Company does not account for any fixed-rate borrowings at fair value through profit or loss. Therefore a change in interest rates at the reporting date would not affect profit or loss.

The Company Treasury manages the interest rate risk to reduce the volatility of the financial result as a consequence of interest rate movements. For the decision whether new borrowings shall be arranged at a variable or fixed interest rate, the Company Treasury focuses on an internal long-term benchmark interest rate and considers the amount of cash and cash equivalents held at a variable interest rate. Currently, the interest rate exposure is not hedged.

#### Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due. Company Treasury manages the Company's liquidity to ensure sufficient liquidity to meet all liabilities when due, under both normal and stressed conditions, without facing unacceptable losses or risking damage to the Company's reputation.

Excess liquidity can be invested in instruments such as time deposits, government, and corporate bonds, shares of publicly listed companies, and capital protected instruments.

#### 3.16 COVID-19 disclosure in the financial statements

On 30 January 2020, the World Health Organization declared the outbreak of Novel Corona Virus (COVID-19) as a pandemic, which continues to spread worldwide. In response to the outbreak, the Government of Bangladesh and stock Exchange of Bangladesh declared general holiday from 26 March 2020. Since then the Company temporarily closed its office and branches stopping all of its operations due to health concerns associated with COVID-19. While the disruption is currently expected to be temporary, there is uncertainty around the duration as well as the recovery timeline. Therefore, while the Company expects this matter to negatively impact its business. The Company has considered key accounting considerations related to conditions that may result from the COVID-19.
